

SAVE AMELIA CAMPAIGN

DID YOU KNOW THAT...

...it's often ***impossible to prosecute*** stalkers and perpetrators of domestic violence due to lack of admissible evidence?

...even if a victim of domestic violence tries to “just leave,” some abusers refuse to accept that rejection and continue to pose a ***lifelong safety threat*** through stalking and ongoing attacks?

...if a victim is seen to be in imminent danger and there is insufficient evidence for the courts to intercede, the established best practice of the Department of Justice Office on Violence Against Women is to advise victims to ***relocate*** and ***change their identity***?

...thousands of women in the United States and their children have been assigned ***second Social Security Numbers*** and ***new identities*** to protect them from perpetrators the United States Government acknowledges it can not thwart through law enforcement or judicial intervention?

...***both legally assigned Social Security Numbers remain active*** for a lengthy and poorly supervised transition period?

...unlike the Witness Protection Program, victims provided a new identity due to domestic violence are provided ***no formal guidelines*** and ***no material support*** in making the identity transition?

...the US Government provides registrants ***undocumented and ongoing advice*** that it ***refuses to verify***?

...there is little to no coordination among federal and state government agencies, and many ***government agencies lack any knowledge of this protective program*** or procedures for interacting with its registrants?

...on many occasions compliant registrants in this US federal program have been ***mistaken as perpetrators of fraud*** because of their identity status?

...when accused, ***program registrants are abandoned*** and told that they can not be helped for fear of harming this secretive identity change program?

...women have lost custody of their children and been ***prosecuted*** for fraud by one arm of the government ***for following the rules of a government program***?

...so grievous are the ***known failings*** of this program that many registrants are appealing to be released from it?

...one of largest open Amelia cases is proceeding ***right here in Alaska***?

SAVE AMELIA CAMPAIGN

The Save Amelia Campaign is populated by a diverse group of nationally renowned professionals and experts committed to saving ***Amelias – women who have been wrongly accused because of their compliant participation in a US federal protective program*** – nationwide. We invite you to join us.

This is not a partisan issue; it is an American issue.

With your help, a major failure of American institutions can be outweighed and redressed by the citizens and civil society that are truly the bedrock of America.
